

Blessed Sacrament Morning Car Line Procedures – 2020 Update

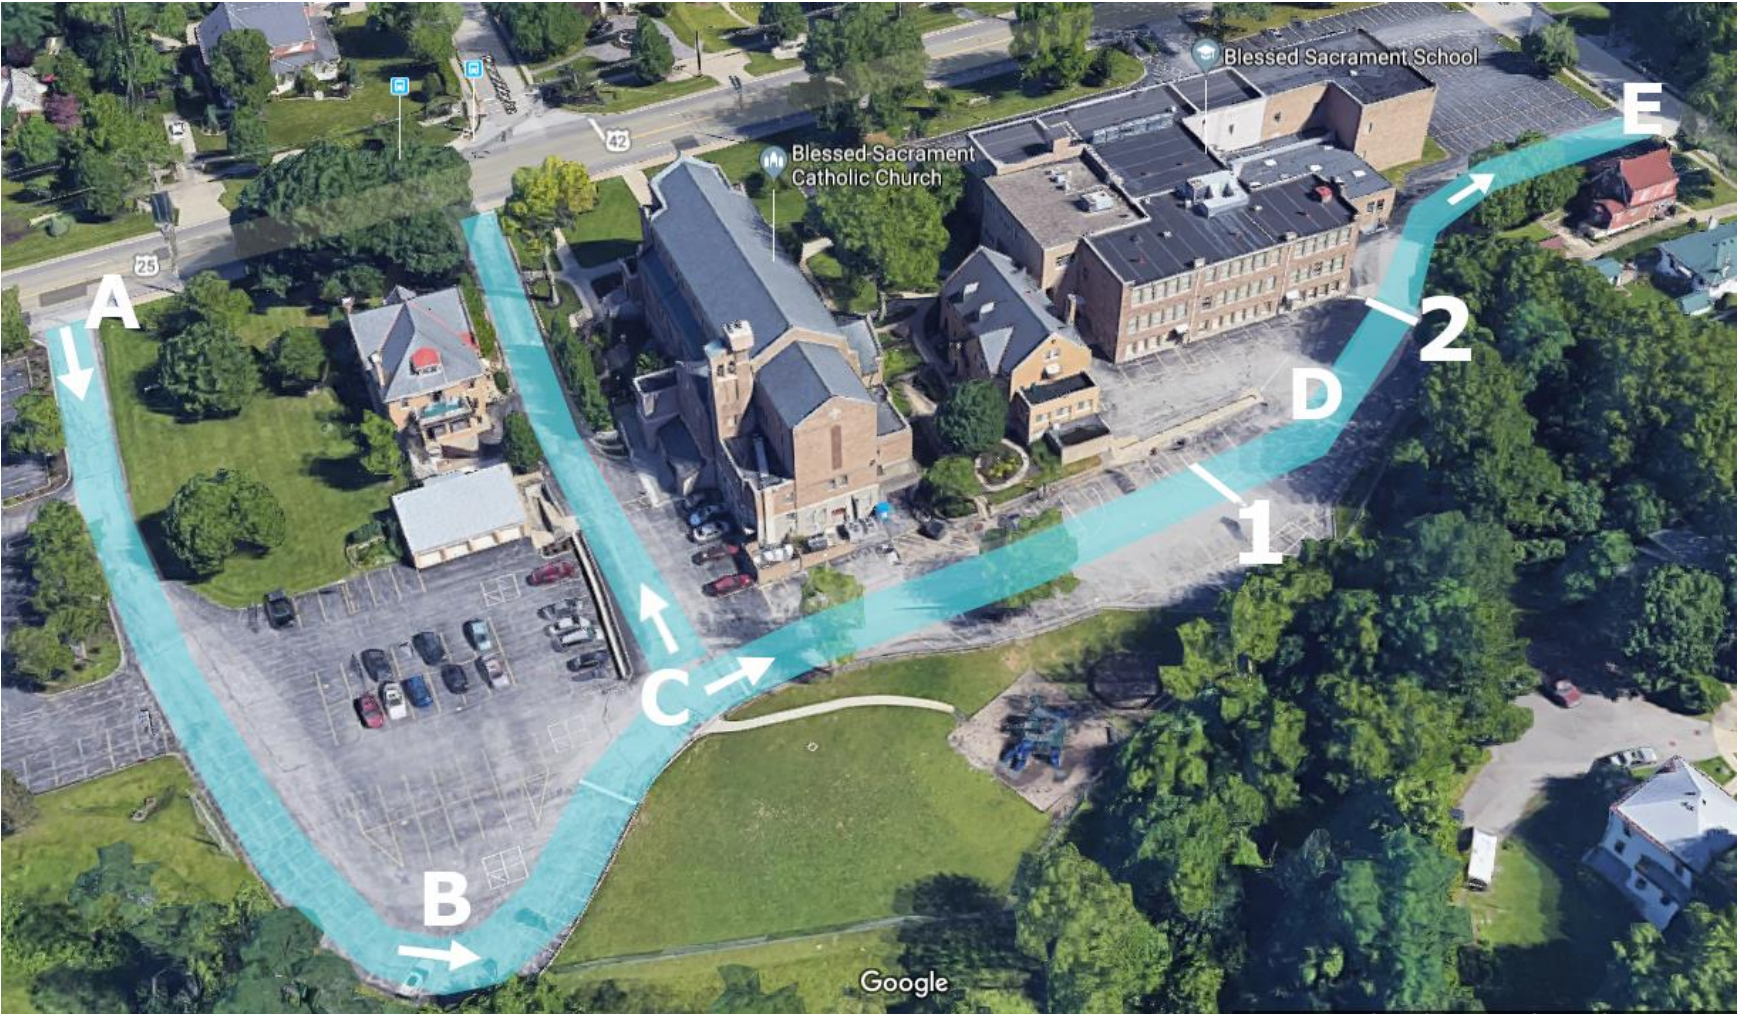

Please read these reminders carefully, as they will help keep everyone safe and moving through as quickly as possible. The letters and numbers reference the picture below.

- A.** Enter from Dixie Highway near the Blessed Sacrament digital parish sign. Follow the blue path in the image below at all times.
- i. As the parking lot begins to widen at the base of the driveway, stay in a single-file line.
- B.** Stick to the edge of the parking lot as you wrap around. The path is marked by a solid white line and is highlighted in blue in the picture below. Sticking to the edge allows us to have more cars in our lot and off of Dixie Highway.
- C.** When you reach the intersection of the bottom lot and the church driveway (point C), if it is 7:05 or later, you may choose either line. If it is before 7:05, you must use the main car line to keep the line clear for busses and the church crowd. We encourage parents of younger students to stick to the main line since only one teacher will be on duty at the top of the drive, and parents of older students to use whichever line is shorter.

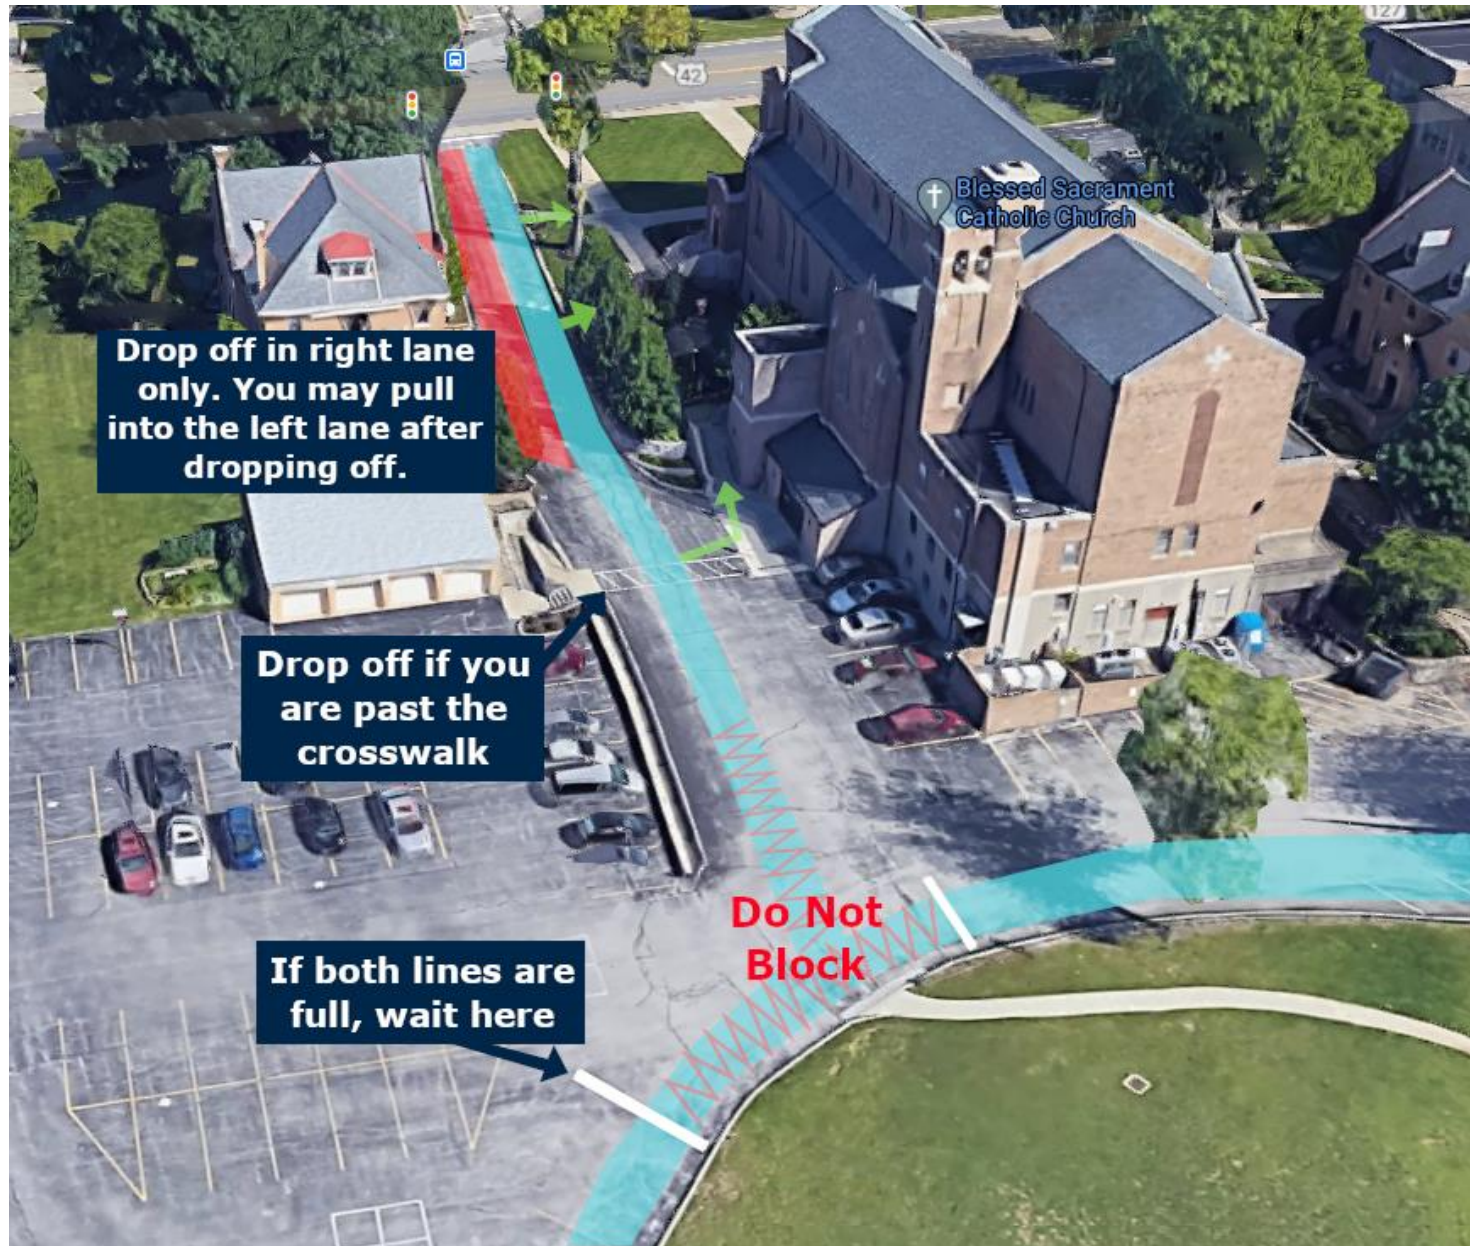

If you choose the church driveway (at 7:05 or later), please reference the image on page 3 for additional details such as:

- i. Do not block the area marked with red lines
 - ii. Only drop off if you are past the crosswalk
 - iii. Only drop off in the right line so students do not cross traffic. You may pull into the left lane after all students are clear of vehicles
 - iv. Be cautious when turning at the light, as there are often walkers and/or bikers crossing, and traffic from Pleasant Ridge (across the street) may also be moving
- D.** For the regular car line path, continue forward. If you reach line 2, stop. If you are stopped between line #1 and line #2, have your children exit the vehicle. It is important that we unload as many cars as possible at one time to keep it moving.
- E.** When you reach Idaho avenue (E), cars turning right onto Dixie may turn left onto Idaho (this span can only hold about 4 – 5 cars). Cars that need to turn left onto Dixie should turn right on Idaho, left on Oak, and left on Highland to get to a traffic light. Please see the image with the green path below.
