NON-TRADITIONAL INSTRUCTION INFORMATION & RESOURCES

Information from your Administration

Hello, BSS Community,

As many of you are aware, Father Dan is retiring come June 11th. Because of current mandates, the grand celebration we had initially planned with the Parish unfortunately cannot take place. We still want to make the occasion as memorable as possible for Father Dan, and, to do that, we need your help!

By June 1st, please send in any photos of yourself and your family that you wish be included in a slideshow for Father Dan. The picture can feature a special memory with Father, but it does not have to. Also, if you have a memory or story you would like read at his private celebration, please also share that. You can email pictures/videos/stories to parish secretary Sarah Gillum at sgillum@bscky.org.

We also want to send a public farewell to both Father Dan and Father Clift by displaying posters on the rectory's lawn and sidewalk chalk messages anywhere on the pavement outside of the church or school. If you can contribute to this, please place the sign or create the art anytime Saturday, June 6th or by noon on Sunday, June 7th. Be cautious of safe social distancing while participating please.

Lastly, the parish has planned a drive-in rosary held on June 7th to honor our priests. The details of the event are explained in the attached flyer.

Thank you for helping us show Father Dan and Father Clift how much we have appreciated their stewardship to BSS. We could not do this without you!

If you have any questions, please email us or Barb Salzman at gbsalzman@gmail.com. Thank you to the Stewardship and Centennial Committees for their collaboration and creative flexibility!

God Bless!
Mr. Steffen and Mrs. Geiman

Other Important Info

Dear Parents,

Thanks for taking the time to help your children socially and emotionally through these challenging times. ! I hope you have a good summer and I look forward to seeing you all when school begins again. Please know that I will be available in early August to assist with any concerns you might have about your children.

In the meantime, Children's Hospital has an extensive website that has a variety of articles about the hospital but more importantly articles/blogs with coping strategies that could be helpful for you or your child. Check it out at [Cincinnati Children's COVID-19 information page](#).

Take care and stay healthy!

Mrs. Ankenbauer

School Counselor

Please know that all precautions are being taken with the health and safety of all of us in mind. Take time every day to pray with your family, and consider joining in prayer with others online. If your family would like to join in the celebration of mass from your home, please [CLICK HERE](#) for online mass options listed on our parish website.

Please [CLICK HERE](#) for information about free resources offered to any K-12 student by the Kenton County School District during NTI.

K	\$36.75	\$37.75
1st Boys	\$48.20	\$49.20
1st Girls	\$48.20	\$49.20
2nd	\$61.00	\$62.00
3rd	\$58.00	\$59.00
4th	\$76.00	\$77.00
5th	\$80.00	\$81.00
6th	\$73.00	\$74.00
7th	\$57.50	\$58.50
8th	\$43.50	\$44.50
Calculator 7th & 8th	\$24.00	\$25.00

ONLINE ORDERING ONLY!

Order Securely Online

Starting NOW thru June 14th!

Late orders start June 16th thru July 7th

1. Go to www.educationalproducts.com/shoppacks
2. Enter the school ID, BLE043 (3 letters/3 numbers)
3. Follow the directions to complete your order.
4. Keep your online confirmation as your receipt.

An email will be sent out when the school supply kits can be picked up at school.

For questions, please contact Kris Heck at kaheck@fuse.net or 859-802-0977

Dear Parents,

Since the COVID-19 outbreak has caused many schools to close indefinitely, delivering *Summer Solutions* books to the school will be impractical. Therefore, we are offering an easy way for you and your children to still get the books you need. Instead of having your *Summer Solutions* books distributed at school, your books will now be delivered directly to your home. **Each book is \$15.99 which includes shipping.**

If you have already placed your order, your books are currently being shipped to the school, and the school will contact you regarding distribution.

If you have not already placed your order, go to

www.summersolutions.net.

Your school code is **MAT43230**. There is no expiration date for ordering. You can use this code to order books throughout the summer.

Have a great day, and stay healthy!

Young At Art Challenge

Tell us how you and your kids are getting creative at home for a chance to win a \$250 BLICK e-gift card!

Enter below by May 31, 2020. Five randomly selected winners will be announced on or after June 1, 2020.

No purchase necessary. Parents/Guardians must be 18+. Ends 11:59 p.m. CT on 5/31/20. US residents only.

Imagine your Story

2020 Summer Reading Celebration

June 1st - August 31st

Kenton County Public Library

Kids: (ages 2-12)

- ★ Pick up a booklog at your local KCPL branch OR register online and start reading or listening to books.
- ★ Read or listen to 5 books or read for 2.5 hours and win a book prize!
- ★ After 10 books or 5 hours of reading, return the log to receive your 2020 SRC T-shirt OR a drawstring bag (while supplies last) and a raffle ticket for a chance to win one of 3 grand prizes: a Technology basket, a Fun & Games basket, or an Art basket!
- ★ Keep reading for more chances to win the grand prizes!

Teens: (ages 11-18/grades 6-12)

- ★ READ & WIN! Read or listen to any book or magazine or attend any program to enter.
- ★ Enter online or at your local KCPL branch.
- ★ One winner per branch will be drawn every week for prizes!

Questions?

859-962-4000
kentonlibrary.org/src

Adults:

- ★ Read or listen to books, audiobooks, ebooks, and periodicals or attend book related programming to enter.
- ★ Enter online or by visiting your local KCPL branch.
- ★ Prizes awarded bi-weekly!

Thanks to our sponsors

Supported by FRIENDS OF THE FOUNDATION

**LAFFALOT SUMMER CAMP
IS STILL SCHEDULED
TO BE HELD IN JUNE!**

**IF cancellation
is necessary
due to Covid-19,
refunds will be issued
for camper fees.**

FR. DAN FR. BENTON WE WILL MISS YOU

CLERGY FAREWELL Weekend of June 6 / 7

**Conscious of Social Distancing,
we will still bid farewell to our
beloved priests**

Our sendoff has three parts:

- A Personal Gift of Photos
- A Public Display of Farewell
- Drive-in Prayer and Song

VIRTUAL IT'S SCHOLASTIC **BOOK FAIR** **TIME!**

Monday, May 4th – Sunday May 17th

We are excited to host a Virtual Book Fair during this time when we can't physically be in the school building.

This is a wonderful opportunity for families to find a wide selection of books throughout the Scholastic Book Store. Scholastic is offering FREE shipping to your home for orders over \$25.

To make shopping easier, parents can download the Scholastic [Book Fair App](#) on their phone. It is completely free and user friendly!

Once you download the app, follow these instructions to ensure you shop through the **Blessed Sacrament School** link:

- Find a Book Fair Option – type "Blessed Sacrament School"
Select the Blessed Sacrament School that matches our address (2407 Dixie Hwy)
- The Online Book Fair Homepage will appear

*The "Shop Now" URL will appear on **Monday, May 4th** and purchasing can begin on this date

Check out the [interactive book flyer](#)

If you have any questions, please reach out to Mrs. Bradley
ebradley@bssky.org

Our community is in need and we all want to help!

Blessed Sacrament's St Vincent de Paul Conference has been busy helping those in need during the quarantine. During this time of crisis our shelves of our conference's pantry are looking bare. The 2nd graders usually stock our shelves with their service project but this year due to quarantine that project was not able to happen. We are trying to fill our shelves and share any overflow to the other pantries in need.

Sunday, May 17, 2020
Drive Through / Drop Off: 2:00pm to 4:00pm

Please enter from Dixie Hwy, drive behind the church and drop off non perishables by the school's cafeteria you will exit onto Idaho.

All canned goods or boxed foods are needed, but here's a list of items currently in short supply: Cereal, Peanut Butter, Jelly, Tuna, Beans, Canned Fruit, Soup Soap, Toothpaste, and Toilet Paper

If you wish to make a monetary donation instead, please make checks payable to SDVP Blessed Sacrament Conference and drop off during the food drive.

Your generosity is greatly appreciated!!!

'For God has not given us a spirit of fear, but of power and of love and of sound mind.'
2 Timothy 1:7

Are you considering Blessed Sacrament School for Kindergarten?

We'd love to show you why
Blessed Sacrament School is the
best next step for your family!

Correct, good job

Prayer for a Pandemic

May we who are merely inconvenienced
Remember those whose lives are at stake.

May we who have no risk factors
Remember those most vulnerable.

May we who have the luxury of working from home
Remember those who must choose between preserving their health or making their rent.

May we who have the flexibility to care for our children when their schools close
Remember those who have no options.

May we who have to cancel our trips
Remember those that have no place to go.

May we who are losing our margin money in the tumult of the economic market
Remember those who have no margin at all.

May we who settle in for a quarantine at home
Remember those who have no home.

During this time when we cannot physically wrap our arms around each other,
Let us yet find ways to be the loving embrace of God to our neighbors.

Amen.

Everyone stay home and stay healthy!

BSS Grade-Level & Specials Resources

Kindergarten (KA): Parents should begin each day by referencing the lesson plans for that were emailed and provided when students' materials were picked up.

Kindergarten (KB): KB should look for their introductory video for the day from Mrs. Seiter. There you will find the format for each day and extra activities/videos to go along with each lesson.

Kindergarten (KC): Parents should begin each day by referencing the lesson plans for that were emailed and provided when students' materials were picked up.

Grade 1: Each day, the first grade parents can review the typed plans that were both emailed and sent home as a hard copy for this round of NTI. Please remember to be working in each subject a little each day, add in breaks for the kids, and try and begin work at the same time each day for consistency and routine for the kids. Thank you for all your hard work at home!

[Spashlearn.com](https://www.spashlearn.com)(please email your homeroom teacher with questions)

Grade 2: Parents should begin each day by referencing our Class Dojo videos. Then, they can reference our NTI plans sent via email. It details all the assignments through March 27th.

[Spashlearn.com](https://www.spashlearn.com), [Readworks.org](https://www.readworks.org), [ClassDojo.com](https://www.classdojo.com),
<https://www.youtube.com/channel/UCLdGnfC6aZg4CI1HHldVT8A> (Mrs. Wirtz's YouTube)
<https://www.youtube.com/watch?v=wCYQOMCTx3k&t=5s> (Mrs. Cowles' YouTube)

Grade 3: Students should start by referencing the calendar that was sent home. All details regarding assignments can be found in the 3rd grade Math, Reading, and Writing Information emails. Religion, Science, and Social Studies information can be found in the emails sent home by the specific teachers.

[Wonders](https://www.wonders.com), [Spashlearn.com](https://www.spashlearn.com), [Brain Pop](https://www.brainpop.com), and [Think Central](https://www.thinkcentral.com)

Grade 4: Parents should begin each day by checking the 'at home learning calendar' that was emailed. It includes a checklist of the assignments that need to be completed each day. See lesson plans from 4th grade teachers on specific directions for assignments, as needed. Students needing Mrs. Wood's math assignments should refer to Class Dojo.

Zoom app (please download and create an account), [ClassDojo.com](https://www.classdojo.com),
Google Docs, YouTube, [Clever](https://www.clever.com) (for access to Quizlet and Thinkcentral)
Websites for research: <https://www.ducksters.com/>, <https://kids.kiddle.co/>, <https://mrnussbaum.com/>

BSS Grade-Level & Specials Resources

- **Grade 5:** Parents should begin each day by referencing the [Google Calendar](#). It details all assignments to be completed for the day in Google Classroom or on paper. Please download Zoom for students to use. Mrs. Lubbers is planning on using this more next week for book discussions with our novel. Mrs. Stall will be returning next week! :)

Google Classroom- <http://classroom.google.com>, Membean- <https://membean.com>,
IXL-<https://www.ixl.com>, [Prodigy](#), [NewsELA](#), [Mathgames.com](#), [Common Lit](#)

Grade 6: For core content classes, parents should begin each day by referencing our “6th Grade At Home Learning Calendar” and can expect to receive an updated “6th Grade At Home Learning Calendar” this Friday afternoon. All details related to each assignment can be found in the teachers’ corresponding Google Classroom. All work in each daily column should be completed by the end of that day. Spanish assignments will be posted to Mrs. Miller’s Google Classroom on Wednesdays and Fridays.

Google Classroom, <https://www.youtube.com/channel/UCDIUz4F0OhKmcJuELURGImA/>
(Ms. Schklar’s YouTube Channel), Zoom app (please download and create an account), Genius Scan

Grades 7 and 8: Students should begin their day by checking the student calendar in [Sycamore](#). That assignment will then direct them to either Google Classroom or Edmodo to complete the assignment.

Google Classroom, Sycamore, Membean (Language Arts), Edmodo.com (Math and 7th grade Language Arts), <https://www.noredink.com/> (7th grade Language Arts), [NewsELA](#) (7th grade Language Arts), <https://connected.mcgraw-hill.com/> (Science), Zoom app (please download and create an account)

Spanish (grades 5-6): Google Classroom, Quizlet

(grades 4, 7, 8): Spanish Work is posted on Sycamore and also is on the calendar.

For next week I am working to post some work on Quizlet.

Service Opportunity

During these uncertain times, it is appropriate that we remember the many businesses (and community friends) that surround Blessed Sacrament that have always been so supportive of our school and our fundraising efforts through the years. It is our time to support them not only by getting carry-outs and making purchases, but also by letting them know that we will pray for them and the continued success of their business and employees.

I have created a [SIGN-UP GENIUS](#) whereby your family can “adopt” one business to which you can send a note of HOPE. I also have prepared a simple printable/foldable note you can use, or perhaps you have a kiddo who would like to create their own note. This is a great little task for kids!

(Please click [HERE](#) for Microsoft Word template, or click [HERE](#) for pdf template)

A suggestion for what you may want to write may be something like this:
The families of Blessed Sacrament School wish to thank you for remaining open during these uncertain times to serve our community. May God Bless you and your employees and give you HOPE that we will get through this together.
Sincerely, The _____ Family-on behalf of Blessed Sacrament School

Or, for those businesses that are not able to be open, you may want to write something like this:
The families of Blessed Sacrament School wish to offer you prayers during these uncertain times. Thank you for being an important part of our community. May God Bless you and your employees and give you HOPE that we will get through this together.
Sincerely, The _____ Family-on behalf of Blessed Sacrament School

Finally, if there are additional places you would like to add to the list, please email me at anitaawagner@gmail.com, and I will include them on the sign up.

1. Interview a family member.
2. Measure the area and perimeter of each room in your home (bonus points for windows!).
3. Graph the types of birds that frequent your yard or windows.
4. Be completely silent for 60 minutes, then write about the experience.
5. Write and mail a [real] letter to your teacher or principal or classroom pen pal. Address the envelope yourself.
6. Build a "fable fort" out of blankets and chairs. Camp in it all day and create stories to tell your family over dinner.
7. Learn Morse Code and use it to communicate with your siblings through walls and floors.
8. Alphabetize the spices in your kitchen.
9. Stay up late and stargaze.
10. Call a grandparent or older relative. Ask them to teach you the words to a song from their childhood days.
11. Using household materials, build a working rain gauge, barometer, and wind vane.
12. Determine and chart the times that different liquids require to turn solid in the freezer.
13. Design and build puppets to perform a show.
14. Construct a family tree.
15. Learn ten new big words. Write them in marker on your bathroom mirror.
16. Draw a map of your home and neighborhood.
17. Sit silently for 15 minutes while you write down every sound you hear.
18. Create a Venn Diagram that compares and contrasts two people connected to you in anyway.
19. Learn, practice, and perform a magic trick.
20. Learn, practice, and tell three new jokes.
21. Use household materials to make and play stringed, percussion, and wind instruments.
22. Learn to shine a pair of shoes.
23. Collect leaves from ten different (non-harmful) plants. Sort them by size, color, and texture.
24. Put your favorite book, toy, and keepsake on a small table in sunlight. Draw or paint a full color still life.
25. Find, pick, and dissect a flower.
26. If you have stairs, walk up and count them. Walk down and count by twos. Walk up and count by threes. Continue through tens.
27. Determine the volumes of ten containers, then display them in order on your porch.
28. Write a poem on your sidewalk using chalk.
29. Classify twenty everyday objects by shape, size, color, height, mass, and material.
30. Measure the length of your bed using five different nonstandard units.
31. Call a person who speaks a language you do not. Ask them to teach you five common words or phrases.
32. Create and use a secret code.
33. Using one type of paper (constant), build three different paper airplanes (independent variable) and test to see how far they fly (dependent variable).
34. Set a clock three hours and seven minutes ahead. Whenever someone needs to know the time, help them figure it out by subtracting.
35. Write down every adjective you say for one full day.
36. Color in a map with every state you (or your family) ever visited.
37. Write or tell a story titled "What if humans had to leave the Earth and no one remembered to turn off the last robot?"
38. Find ten rocks smaller than a dime.
39. Using paper, tape, and string, design, build, and test a device that warns you when someone opens a cabinet.
40. Imagine, create, and fly a full size flag that tells the world about you.

Local Online Resources for Kids

<http://cincinnatizoo.org/home-safari-resources/>

While the Cincinnati Zoo is closed and kids are home from school, let us help make your children's hiatus from school fun and educational. Join us for a Home Safari Facebook Live each weekday at 3pm EDT where we will highlight one of our amazing animals and include an activity you can do from home. Don't have access to social media? No worries! All videos will be posted on our website and to our YouTube channel shortly after the Facebook Live ends.

<https://www.cincymuseum.org/wonderzone/>

Curiosity is far too big to fit into a museum, so we're bringing it straight to you. WonderZone brings experiments and museum experiences into your home. Follow along and try your hand at some of these experiments or just watch and enjoy.

Educational YouTube Channels

[Liberty's Kids](#)

Here is a great opportunity for your kids to experience a “history surge” and get a huge, entertaining, and compelling dose of American history. Liberty’s Kids first aired on PBS decades ago, and is a fantastic narrative account of the American Revolution, spread over 40 episodes, 23 minutes each. So “assign” four episodes a day and you’ll kill an hour and a half for two full school weeks!

[Mark Rober](#)

This former NASA engineer is a rock star YouTuber, with over 10 million subscribers. It’s not hard to see why: he comes up with super fun and engaging ways to explore science concepts and engineering challenges—like showing kids how carnival games rip you off, or testing if sharks can taste a drop of blood. A good place to start is his “learn some science” playlist, currently at 26 videos, 10 to 15 minutes each.

[Extra Credits Extra History](#)

Extra Credits started as a channel for gamers, especially those interested in historical war games, but its creators also now make videos about history itself. They are up to over two hundred at last count, each last ten or fifteen minutes, and ranging all across the world and various epochs. Many are focused on military history (understandable given the channel’s genesis), with occasional diversions. Their vast offerings allow them to deeply explore topics. They dedicate four episodes, for a total of more than forty minutes, to the Punic Wars, for example. Compelling narration and cute animations combine for addictive viewing for budding history buffs.

[Bill Nye the Science Guy](#)

Why not go old school? This iconic show aired for five seasons in the mid-1990s, so if you think Friends and Seinfeld still feel fresh, why not give this a shot too? There is a playlist with 48 full-length, 23-minute videos, covering virtually every major topic in the science curriculum.

[Crash Course](#)

This is the granddaddy of educational YouTube, created by Hank and John Green, aka the Vlogbrothers, the latter of whom is already familiar to young readers as the *New York Times* best-selling author of *The Fault in Our Stars*. They have built a huge library of videos across most major disciplines, including playlists of forty-eight videos on U.S. history, seventy-two on world history, and fifty on U.S. government and politics. Each episode is generally ten to fifteen minutes long and features John Green talking about the subject, mixed in with some humor and animations. It’s geared toward high-schoolers but works for precocious younger kids too.

Educational TV Shows & Movies

The Magic School Bus (Netflix)

Sure, scientific knowledge is constantly evolving, but Mrs. Frizzle never gets old. Like Bill Nye the Science Guy, this is another mid-1990s children's show about science; that must have been some sort of Golden Age. And it brought real star power, as the title character was played by Lily Tomlin. I can't vouch for the recent Netflix reboot, *The Magic School Bus Rides Again*, but the original is a fantastic introduction to key scientific concepts for the early-elementary school set.

Walking with Dinosaurs (YouTube TV)

It's amazing that it hails from the late 1990s, given how good the CGI is. It looks and feels just like any other great nature documentary from the BBC—complete with the Kenneth Branagh narration. Check out the companion *Walking with Beasts*, *Walking with Cavemen*, and *Walking with Monsters* too.

National Geographic Ancient Civilizations (Amazon Prime)

This series will kids up to speed on the ancient world, covering ancient Egypt, Greece, Rome, and the Americas, among others.

Jane (Netflix, Hulu, Disney-Plus)

A wonderful documentary about the life of Jane Goodall, the pioneering woman whose decades-long study of chimpanzees gave us critical information about our cousins, and ourselves. Some themes might go over the heads of younger viewers (i.e., her reflections on gender bias) but everyone will enjoy the images of the baby chimps and their parents.

Our Planet (Netflix)

I would recommend some of the classic BBC nature documentaries—like *Blue Planet*, *Our Planet*, and *Frozen Planet*—but as far as I can tell, you have to pay for them, even if you've got subscriptions to all of the streaming sites. So go for this Netflix series instead. With eight episodes, at fifty minutes each, you'll cover all the basic ecosystems on earth. Biology? Check!

FREE Educational Podcasts for Kids

[History Chicks](#)

Each of their 150 hour-long episodes tells the story of a famous woman from history—and some women who aren't famous but should be. It's hosted and produced by Beckett Graham and Susan Vollenweider, two Mid-western moms who adore history and don't think it should be “dusty”—and love to talk and talk and talk. (Another great option in this genre, geared directly at kids, is [Good Night Stories for Rebel Girls](#).)

[Wow in the World](#)

This show from NPR, hosted by Mindy Thomas and Guy Raz, explores fun and fascinating topics in the world of science and technology. There are dozens of episodes at about a half an hour each.

[Tumble](#)

Another award-winning science podcast, co-hosted by a journalist and a teacher, with a big focus on interviewing scientists themselves.

[Freakonomics](#)

Steven Dubner, the co-author of the *Freakonomics* books, examines the “hidden side of everything,” from science to sports to politics and more. It's a show for adults but totally appropriate (and captivating) for older kids too.

Educational Websites for Kids

Arcademic Skill Builders - Designed for students in first through sixth grade, the free [Arcademic Skill Builders website](#) has dozens of games that aim to improve your child's knowledge in math, geography, typing, spelling and language arts.

Backpack Sciences - Parents with elementary-age students can access [Backpack Sciences's free video series](#), which teaches kids hands-on science concepts.

Boardmaker - Designed for little kids who are visual learners, [Boardmaker offers free printable activities](#) that are especially beneficial for children with special needs, such as those with Down syndrome or autism.

Book Creator - Parents can help their school-age kids make their own books using [Book Creator's 90-day free tutorial](#), which lets kids write and illustrate their own creations.

BrainPop - [BrainPop](#), a lesson-planning tool, is a great resource for parents of both big and little kids. It's chock-full of helpful resources that span topics like arts and music, English, science, and technology.

Breakout EDU - Whether you have a child in kindergarten or high school, [Breakout EDU](#) has a slew of educational games that touch on subjects like science, math, and language arts.

Century - The folks over at [Century](#) are allowing parents to access all their resources for free over the next few weeks. Designed for students of all ages, kids can brush up on their math, science, and reading skills.

Circletime - Babies and little kids up to age 6 can watch videos that include sing-alongs, beginner yoga, and story time thanks to [Circletime's interactive website](#).

CK-12 Foundation - The [CK-12 Foundation](#) caters to students of all ages. Always free, kids can brush up on their math, science, and reading skills with online reading passages, videos, and optional review questions that are graded at the end.

Conjuguemos - For those who don't have a paid account, [Conjuguemos](#) offers some free vocabulary, grammar, and listening activities in Spanish, French, Italian, German, Portuguese, Korean, and Latin for students at all levels.

Edu-Together - Parents with kids in grades three through 12 can get access to [Edu-Together videos](#) that span all academic subjects, like languages, science, history, and math.

Educational Websites for Kids (cont'd)

Epic! - Dubbed the "leading library for kids 12 and under," [Epic! gives parents access to 35,000 different books](#), videos, and quizzes.

Fluency Matters - Using [Fluency Matters](#), learners of all ages can get access to 21 days of free, engaging content designed to increase comprehension of foreign languages.

Good2Learn - Kids between the ages of 7 and 12 can watch [Good2Learn's instructional videos](#) with a 14-day free trial. Each video lasts between two and five minutes and centers on either math or English concepts.

HippoCampus - Children of middle school age and older can [access more than 7,000 free videos across 13 subjects with HippoCampus](#). The best part? It's always free.

iCompute - [iCompute](#) is giving students from the ages of 3 and 11 free access to its computing content for one month. Kids who are obsessed with all things STEM will absolutely love it!

Izzit - [Izzit](#) is a free site that helps parents and educators teach kids of kindergarten age and older a wide variety of subjects — including language arts, music, math, and world history — through digestible videos.

Kids Discover Online - Parents who are facing school closures can get their school-age kids free access to [Kids Discover Online's library](#) of science and social studies materials for three full months.

Kinedu - The [makers of Kinedu](#) recently announced its library of 1,800 easy-to-follow videos designed for kids up to 4 years old is completely free.

Math Game Time - Whether you have a child in pre-K or seventh grade, you can beat boredom and keep your learner's math skills sharp thanks to dozens of games that focus on everything from counting to algebra on [Math Game Time's website](#).

Minecraft - Education Edition - Who says video games can't be educational? [Minecraft: Education Edition](#) is always free and teaches kids of all ages problem-solving, collaboration, and creativity.

Mystery Science - Designed for kids in kindergarten through fourth grade, the [Mystery Science website](#) recently made dozens of its lessons — which range from 15 to 90 minutes — completely free.

NASA Kids' Club - [NASA Kids' Club](#) helps children in pre-K through fourth grade learn the ins and outs of NASA's missions using hands-on educational games. There's also a "Now in Space" slideshow that introduces budding astronauts to the crew currently orbiting Earth on the International Space Station.

Educational Websites for Kids (cont'd)

National Geographic Kids - [National Geographic Kids](#) has put together a site full of free educational videos, games, and activities that center on wildlife and preservation for kids of all ages.

Nearpod - Offering hundreds of classes in subjects ranging from fine arts to financial literacy, [Nearpod](#) is geared toward students in kindergarten through high school.

Osmo - The award-winning educational brand, Osmo, is offering free access to its app, [Osmo Kaleidoscope!](#) through March 31. Featuring seven hands-on "explorations" geared towards kids pre-K through fourth grade, all parents need is an iPad to get started.

PBS LearningMedia - Parents of students who are in pre-K and beyond can easily search the [PBS LearningMedia](#) site for content covering science, math, language arts, and more.

PebbleGo - A curricular content hub created for students in kindergarten through third grade, [PebbleGo](#) offers ready-made activities and literacy support for children of all abilities.

Raddish Kids - [Raddish, a for-kids cooking subscription service](#), is currently offering free recipes, activities, and an at-home camp curriculum. Additionally, it will be giving away 25,000 free cooking kits over the next few weeks to kids between the ages of 4 and 14!

Rockalingua - A music-based Spanish learning program, [Rockalingua is a great option for young beginners](#) in Spanish thanks to its library of interactive videos. Think of it as an extension of the type of learning Dora the Explorer provides.

Scholastic - [Scholastic's "Learn at Home" program](#) gives parents with children pre-K through ninth grade 20 days' worth of "active learning journeys" designed to keep students engaged while they're out of the classroom.

Scratch - Kids in elementary school can try their hand at coding using [Scratch](#), a free website designed by educators at MIT that's chock-full of dozens of interactive projects.

Seneca - Using [Seneca](#), younger kids can brush up on multiplication tables while middle schoolers practice their pre-algebra skills. There are also Spanish and biology courses available, as well as classes for high schoolers.

Educational Websites for Kids (cont'd)

Sight Reading Factory - Young musicians who want to stay sharp can practice reading music using [Sight Reading Factory's free service](#) through 6/30.

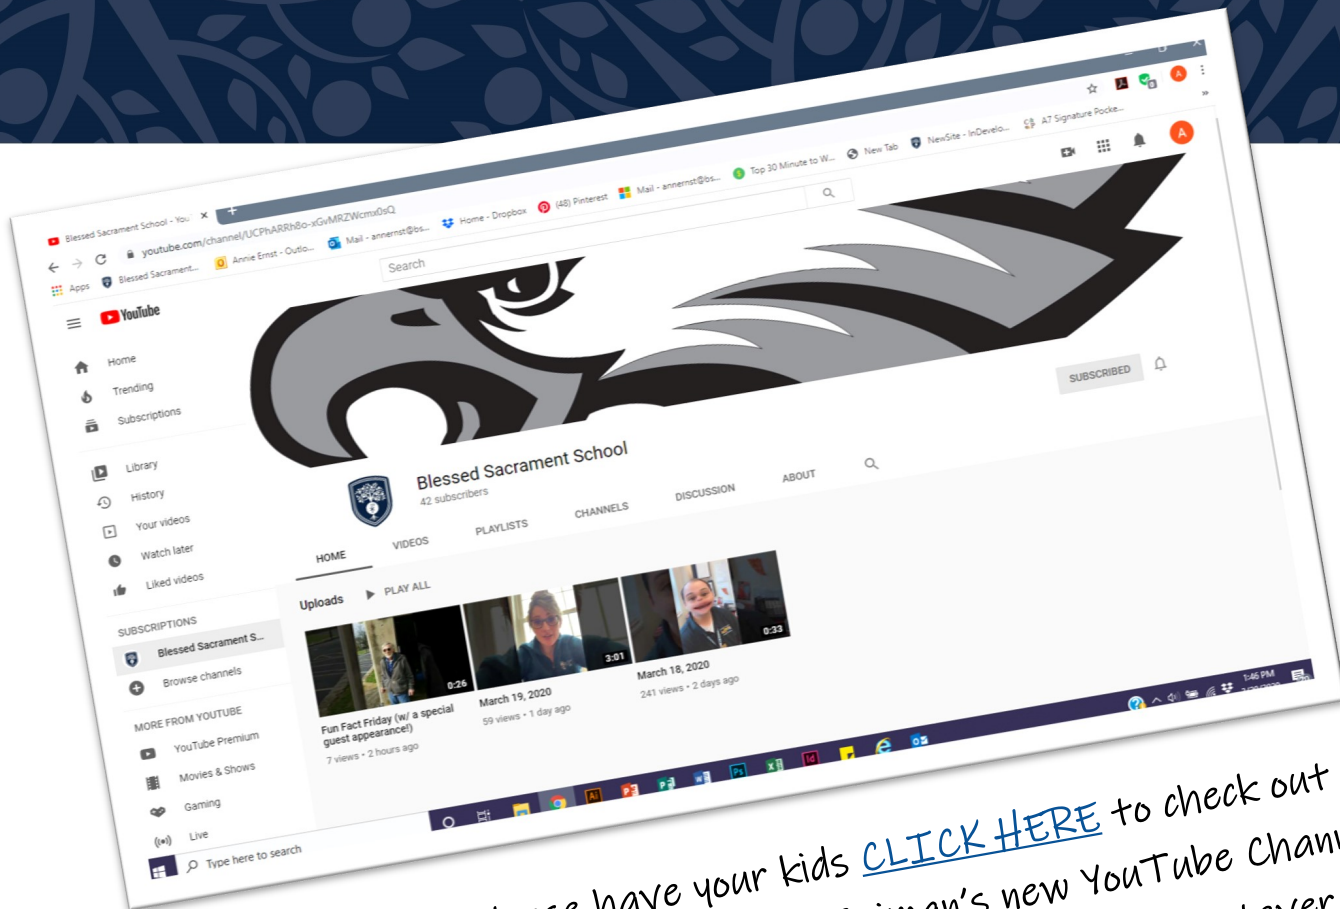

Storyline Online - Want a break from educational games? [Storyline Online](#) recruits celebrities — like Rami Malek and David Harbour — to read popular children's books geared towards kids ages 4 to 7. Watch and listen as they read aloud on Storyline's YouTube channel.

Touchable Earth App - Always free, the [Touchable Earth App](#) lets kids between the ages of 8 and 11 teach each other about the world through short videos. The creators of the program seek to normalize diversity by having children share their various experiences.

TypingClub - Created for children 7 and up, [TypingClub](#) offers free games and activities meant to improve your kiddo's typing skills.

The Weather Channel - A great option for school-age kids, [The Weather Channel's website](#) has a dozen or so science-based videos that touch on concepts such as rainbows, jet streams, and how tides work.

2Simple Purple Mash - A growing online library with guided reading options for students between the ages of 5 and 11, [2Simple Purple Mash](#) also has materials for at-home learning for children between the ages of 2 and 5.

Please have your kids [CLICK HERE](#) to check out Mr. Steffen and Mrs. Geiman's new YouTube Channel for video updates, Fun Fact Fridays, and whatever else they come up with to post!

If you have a great idea to share, feedback on an event, questions on upcoming events, or want more information on how to get involved please contact the BSS Parents Club at parentsclub@bssky.org.

If you have photos of BSS events, sports, after-school activities, classroom parties, etc., please send them to Dawna Thompson at bsskypictures@gmail.com

If you would like to submit an article or flyer to our weekly newsletter, please send information to Annie Ernst at annernst@bssky.org.
All information MUST be submitted by 12:00 pm on Monday to be printed in that week's newsletter.
(Submissions made after the deadline will run in the following week's newsletter.)
